- For families/households with more than 8 persons, add \$360.00 for each additional person.
  - To calculate figures for column D, multiply the applicable FPL level in column E by 1.5, then round down to the nearest dollar.
  - To calculate figures for column C, multiply the applicable FPL level in column E by 2.0, then round down to the nearest dollar.
  - To calculate figures for column B, multiply the applicable FPL level in column E by 2.5, then round down to the nearest dollar.
  - To calculate figures for column A, multiply the applicable FPL level in column E by 3.0, then round down to the nearest dollar.
- A household subject to the recovery process will be sent an invoice in the amount of \$100.00 per month for an IPV claim or \$50.00 per month for a UPV/AE claim.
- Households have the option to request a lower monthly repayment, if they are unable to meet the minimum monthly obligation for their claim.
- Eligibility for a reduced repayment amount will be based on household size and Gross Monthly Income (GMI).
- Collections staff must utilize the chart above in their redetermination process. The figures reflected in the chart are calculated using the 2017 Federal Poverty Levels (FPL). This chart will be revised annually to align with increases or decreases in poverty guidelines.
- Households with GMI equal to or greater than 300% of the FPL will not be eligible for a reduced repayment amount. A denial notice will be sent to these households.
- Households with GMI equal to or less than the federal poverty guidelines are eligible to claim the lowest repayment option of \$20.00 for IPV claims and \$10.00 for UPV or AE claims.
- Clients can self-declare their household size on the Financial Statement Form. They must attach verification of their earned/unearned income to be reviewed by Collections staff. If determined eligible for a reduced repayment amount, an approval letter and updated Repayment Agreement must be sent to client.
- Households must request a reduced repayment amount every year. If a request is not submitted timely, the obligation amount will revert back to \$100.00 for IPV claims or \$50.00 for UPV or AE claims.
- The reduced repayment amounts will need to be revised if at any time the standard monthly obligation of \$50.00 or \$100.00 changes.
