

PPER Email 2014-45: TAFDC, EAEDC and SNAP: Preassembled Voter Registration Packets (Issued 12/23/2014)

Effective immediately, at application, reevaluation and recertification, case managers must provide applicants and clients with a preassembled Voter Registration packet that consists of the following:

- **Mail-in Voter Registration form;** and
- Declination form.

If, however, the applicant or client would like to register to vote at the TAO immediately, they should be given in addition, the Massachusetts Official Voter Registration form to complete.

Schrafft's will provide these forms and brochures to each TAO. The materials must be assembled into packets for distribution to all in-person applicants and clients at application, reevaluation and recertification. Voter Registration packets must be available on all case manager's desks, interview rooms and anywhere a client may be interviewed.
