

**PPER Email 2014-47: Addendum to TAFDC, EAEDC and SNAP: Preassembled Voter Registration Packets (Issued 12/30/2014)**

PPER Email 2014-45 described the new process of distributing preassembled Voter Registration packets to applicants and clients at in-person covered transactions. In-person covered transactions are applications, reevaluations and recertifications, as well as in-office changes of address.

Because all of these clients are now receiving mail-in voter registration forms, the Voter Registration Option Form (i.e., Declination form) does not need to be signed. Accordingly, staff no longer need to collect and file these Voter Registration Option forms. Additional changes to the voter registration process will be forthcoming, including BEACON procedures.

Case managers and staff are reminded that they must continue to offer assistance to all applicants and clients regarding the voter registration process.
