

The BLURB

Blurb #41:
There's an App for that

Say hello to DTA Connect!

On August 29th, DTA is taking a huge step and entering into the world of mobile applications with our very own app: **DTA Connect!**

Once clients download the app to their smart phones or tablets, they will be able to log into **DTA Connect** and access a wealth of information regarding their case that will be current as of the *previous business day!* Using the app, clients will be able to see:

- Benefit details
- Appointment details
- Document list
- DTA info
- Alert details
- Notices list
- Notices details

Not only will our clients not have to waste their minutes waiting on hold, they'll be able to manage their case with just a few easy clicks!

Where will clients be able to download DTA Connect? Well that's simple:

Don't forget to watch the promo video at https://youtu.be/xyBf_tobMWA

More information is available at mass.gov/DTAConnect
